CERAMIC PLUS RESIN FIBRE DISCS

Improved self-sharpening characteristics provide high stock removal and longer product life, when compared to traditional ceramic grain. Top Sized features cool cutting technology for reducing heat and increased performance.

Suitable for high pressure grinding applications.

BIBIELLE DEBURRING WHEELS

The 7 density offers the best conformability to the worked part and generates the best finish.

The 8 density is suggested for application where a combination of deburring and finishing is required.

The 9 density is a longer life wheel designed to excel in heavier sharp edged parts.

SALES POLICY

JISCO Abrasives are manufactured from top quality materials by an experienced staff that is dedicated to providing its customers value-added products and exceptional service. It is our company policy to sell our products into the industrial marketplace only through authorized industrial distributors. It is our goal to ship all standard inventory items within 24 hours and all manufactured products in 2-3 days depending on cure time of our belt joints. Our order variance of + or – 10 % shall be permitted by buyer on any manufactured item. No products may be returned for credit without prior approval by JISCO management. Please refer to our distributor discount sheet for pricing discounts, prepaid freight allowances and accounts payable terms. We value your business and will always strive to exceed your expectations!
